- In Brockton VA. (1)
- Q What was the program, if any, that you entered at (2)
- the Brockton VA? (3)
- A That was the Harvard South Shore Psychiatric (4)
- Residency Program funded by the VA Administration (5)
- and Brockton VA. (6)
- Q Do you know the Plaintiff in this case, Rajenda (7)
- Badgaiyan? (8)
- A Yes. (9)
- Q How do you know him? (10)
- A I joined my residency in July of 2000. And after (11)
- a couple of months, I knew him because he was a (12) year ahead of my class. (13)
- Q How would you describe your relationship with Dr. (14) (15) Badgaiyan?
- A I would -- can say he's my colleague and (16) acquaintance. And I met him in the Residency (17)
- Program, so I knew him probably until mid-2002. (18)
- We used to do, you know, didactics together or (19)
- meet in the campuses. And a couple of times after (20) our graduation, I think, one time or two times (21)
- with a bunch of residents, we went to his place. (22)
- Q Do you know Grace Mushrush, M.D.? 1231
- (24) A Yes.

Page 11

- I was in tears. I was literally crying. (1)
- What did you do then? (2) Q
- (3) Α Then I went to Dr. Mushrush.
- How soon after the meeting with Dr. Alexander did (4)
- you go to see Dr. Mushrush? (5)
- A It was not easy to meet Dr. Mushrush. And then I (6)
 - -- I think it was after a few months, because we
- have a very busy schedule. We used to run around. (8)
- And moreover, what I thought that in my evaluation (9)
- done by Dr. Alexander, mailed to her and mailed to (10)
- (11) me, and in that evaluation he had mentioned that
- he was more severe than needed at one point. So, (12)
- I thought that probably Dr. Mushrush herself will (13)
- speak to me about it and speak to him about it. (14)
 - I waited for a while before I spoke
- to her. I exactly don't remember when I met Dr. (16)
- Mushrush. But I remember the meeting, and I (17)
- explained to her that what had happened. (18)
- (19) And during the discussion, at one
- point, she said that a lot of American doctors (20)
- don't like confident Indians. And it was very (21)
- shocking for me, so I tried to work around. And I (22)
- said, "Why do you think that a lot of American (23)
 - doctors don't like confident Indians?" And she

- How did you come to know her? (1)
- She was our program director. (2) Α
- Q And for what period of time was she the program (3) director while you were in the psychiatric (4) 151
 - training program at Brockton VA? A The entire period. I started in July of 2000
 - until December of 2002.
 - Q Did Dr. Grace Mushrush ever say to you or in your presence anything about Indian doctors?
- (10) Α Yes.

- Would you first please set the stage.
 - What were the circumstances in which
- Dr. Mushrush said something about Indian doctors?
- A It was already 2001. I was doing my in-patient
- (15) psychiatry rotation. And my supervisor at that (16) time was named Robert Alexander, Dr. Alexander.
- (17) He was the supervising physician in In-patient
- Services. And I had a very hard time working with (18)
- (19) him.
 - At one point during a clinical discussion, he used very uncomfortable words that
- (22) even I think now I feel very uncomfortable, that
- (23) "You Indians are not even worth talking to. Leave
- (24) the office before I physically assault you." And

Page 12

- said -- and I thought that because, you know, Dr. (1)
- Alexander was not board-certified. His knowledge (2)
- of medicine, in my opinion, was not up to date. (3)
- So, we had a lot of clinical disagreements. (4)
- So, I said, "Do you think that the (5)
- people get intimidated by the knowledge of (6)
- people?" She said "No. They are very annoying. (7)
- They are very annoying. It's not that people get (8)
- intimidated. They are very annoying." And that (9)
- implied, in my opinion, that the Indians are very (10)
- annoying. They are very confident and annoying. (11)
- Q To your knowledge, did Dr. Mushrush ever speak to (12)
- Dr. Alexander about what ----(13)
- (14) A She didn't tell me about it.
- Did Dr. Alexander ever tell you that Dr. Mushrush (15)
- had spoken to him following your meeting with Dr. (16)
- (17)Mushrush?
- (18) A No.
- Q Had you told Dr. Mushrush the exact language that (19)
- Dr. Alexander had used? (20)
- A Yes. And she advised me that I should yell him (21)
- back. "If he yells at you, you yell him back. He (22)
- swears at you, you swear him back." I said, "That (23)
- is not the upbringing we had. In our culture, the (24)
